Dear Eran,

As we discussed, I am writing this letter to share our support for the JedEye solution. I have been very impressed with the product over the past several months during which we have been testing and demonstrating the product.

Having used the product these past many months, I am even more convinced of its benefits and the positive impact JedEye will have on the security of this and other facilities that employ it. The system significantly increases the coverage of our existing systems and enables us to secure more area without increasing our staff. Each modification you've made has been an improvement with which the product's usability and function continue to grow.

I am pleased to continue our mutually beneficial relationship and look forward to future innovations.

Sincerely,
TEMPLE OHEB SHALOM
