It was my Father's מצוות practice to share the names of the candidates for whom he intended to vote. I am humbly continuing his custom.

It is of utmost importance that every registered voter, vote in this Election. In our area for most local issues the Democratic Primary usually decides who will be elected.

Furthermore, politicians look at the votes in specific precincts. The impact of our political influence as a community is directly related to our strength in numbers as voters in those precincts.

The Presidential Primary this time is quite meaningless as all the candidates listed have dropped out leaving Joe Biden as the only candidate who is actually running.

Most of our community both in the County and the City is in the 3rd Congressional District. I will vote for, **John Sarbanes**. There is a small part of our community in the City who are in the Seventh Congressional District. If I lived there I would vote for **Kweisi Mfume**.

In both the City and County, the **The Sitting Judges** are unopposed and should be voted for.

As a resident of the Baltimore City, I would vote for: Mayor: **Brandon M Scott**, Comptroller: **Bill Henry**, and most important our beloved **City Councilman Isaac Yitzzy Schleifer**.

These are my personal choices and do not represent any institutional endorsement.
